

Day 2

Start and finish at Darling Golf Club – Stage 2: distance 71km & elevation 1330m

This is the longest day of the race. A punchier route gives you a killer compact day of fun – another day of real mountain biking awaits!

Distance: 71km Ascent: 1330m

A slow start brings you to the top of Hendri's Hill and then a fast descent to Glen Frank Farm. Make sure your brakes are working. Then winding up again to the top of Frans Steyn Hill will make sure you are warmed up for the day ahead. Windmill Alley awaits to take you into Doornfontein Wildlife Estate. You might be lucky to see some game before you head to the Alexanderfontein vineyards.

A culvert under the R315 takes you onto some fast farm roads on a circuit towards to the next climb at Klipberg. The route flattens out through a few more farms and will give you time to focus on the wine waiting at the finish line!
